MEMORANDUM

TO: District of Columbia Board of Zoning Adjustment

FROM: Sam Zimbabwe
Associate Director 

DATE: March 18, 2015

SUBJECT: BZA Case No. 18951 - 1733 D Street, S.E. (Square 1102, Lot 110)

APPLICATION

Pursuant to 11 DCMR §§3104.1 Erin and James Boyd (the "Applicants") seek a special exception under §223 from the lot occupancy (§403) and nonconforming structure (§§2001.3) requirements to allow the enclosure of an existing garage in the R-4 District at premises 1733 D Street, S.E. (Square 1102, Lot 110)

RECOMMENDATION

The District Department of Transportation (DDOT) has reviewed the Applicants' request and determined, based on the information provided, the proposal will have no adverse impacts on the travel conditions of the District's transportation network. DDOT has no objection to the approval of the requested special exception.

This review pertains only to zoning issues and does not consider potential impacts to District owned public space. DDOT's lack of objection to the zoning special exception should not be viewed as an approval of public space elements. If any portion of the project has elements in the public space requiring approval, the Applicants are required to pursue a public space permit through DDOT's permitting process. The Applicant may refer to the District of Columbia Municipal Regulations and DDOT's Design and Engineering Manual for specific controls of public space. A summary can be found in DDOT's Public Realm Design Manual.
