4 January 2015

Hi,

My name is Brenda C. Ford, and I am James and Erin's next door neighbor on D st SE.

They are seeking a permit and BZA special exception so that they can wall in their existing carport. They stopped by, and showed me the diagrams and plans for walling in the carport. We have had a chance to discuss this with them, and are happy with the plans that they have put forward. We understand that they will adhere to construction standards and codes for the District of Columbia. They have also made it clear that they are receptive to feedback, and if at any point we have any problems, we can contact them to address the issues.

If you have any questions about this letter of authorization, please contact me at the address below.
