

To: D.C. BOARD OF ZONING AND ADJUSTMENT

Subj: Recommendation letter for application of Zoning Variance

This letter is sent as a recommendation for application of zoning variance in support of a Senior Computer Literacy Class held in Ward 7. Dr. Judy and Edward Fisher, M. D. would like to convert the 2nd floor of 3536 Minnesota Ave SE to a nonprofit office to provide services in the community to teach senior citizens how to use the latest technology such as emails, the internet, social media and other technology to conduct business online from the comforts of their homes. Many businesses are changing to utilize technology for banking, electronic deposits, paying utility bills online, marketing and sales, senior must be comfortable with computer technology.

I have been knowing the Fishers for thirty-five years, they are very instrumental in the betterment of our community. It is their desire to provide this type of service to the senior citizens living in our great city of Washington DC, specifically Ward 7. Being a senior citizens myself, and ANC for Ward 7, I also understand the importance of knowing how to use the computer and other technology; therefore, it is my recommendation for zoning variance in support of this project where the Fishers can began to implement the many social services that are planned for the community through this nonprofit organization. To meet the needs and other services of this type in our area.

Thank you for your attention to this matter and I look forward to working with them for the improvement, advancement and benefit of our senior citizens in Ward 7.

Sincerely

A handwritten signature in cursive script that reads "Elizabeth H. Travers".

COMMISSIONER ELIZABETH TRAVERS
