

March 28, 2015

Dear Neighbor:

My name is Po Saidi and together with Dona Paknejad, we own 508 Rhode Island Avenue NW. We are proposing to convert the existing building (which has been occupied for commercial uses) into a residential building containing three individual units. The new residential use will be established solely through the interior reconfiguration of the existing building, and no addition is contemplated.

Because the property is nearly landlocked and has very limited space in the rear, providing on-site parking is impossible. Therefore we are appearing before the Board of Zoning Adjustment (BZA) seeking relief from the required parking. The unit sizes of approximately 630 square feet are likely to attract and will be targeted towards non-automobile owning renters looking for an urban living experience close to public transportation and other share-ride opportunities. That is in fact what attracted us to this building.

This letter is to seek your support of our application before the BZA. We would very much appreciate your support as we go into this hearing. Your signature in the line provided below indicates your support or that you have no objection to the relief of application.

Thank you in advance for your support.

Sincerely

Po Saidi and Dona Paknejad
