PB

To whom it may concern,

We are the owners of the property located at 335 F Street Northeast, Washington, DC 20002. Our neighbor, Frances Raskin, has been in regular communication with us about her plans for a two story addition to her home at 333 F Street Northeast. We have reviewed the application and her plans. At this point we are conducting additional research and are not prepared to support or oppose the application. We are fine with the board considering this application but reserve the right to object in the future.

Best regards,

Patrick Bailey and AshLee Strong
