Re: **BZA Application of Diana Kurnit and Jonathan (Jon) Brumer**
5330 42nd Street NW, Washington, D.C. 20015

Dear Members of the Board of Zoning Adjustment:

Our/my neighbors Diana and Jon have explained that they are applying for a special exception from the District of Columbia's zoning laws so that they may rebuild a one-story deck in the rear of their house. They have shared drawings of their original plan for the proposed deck and of three alternative designs with us/me and have described the project to us/me in detail.

We/I have reviewed the materials and have no objection to their plans to rebuild their deck. Accordingly, we/I strongly recommend that the Board of Zoning Adjustment grant their request for a special exception, allowing them to build their proposed deck.

Sincerely,
