

Mr. Moy:

Sorry to throw a wrench in things but the version that Chair Bender submitted late last night was not the version we passed at our meeting.

At 5PM on the April 8th we received a revised memo from the Office of the Zoning Administrator which contained a new lot occupancy calculation but more importantly also referenced the requirement for a side yard special exception.

So I quickly revised the resolution to reflect those changes before heading to the meeting – the changes were too late to distribute a draft resolution electronically but the only paper copy that was distributed at the meeting and considered and eventually adopted reflected the exact language in the attached.

Hopefully you can remove the previous submittal from the record and replace the attached as the official submittal from ANC 3E in this case.

Thanks,

Tom Quinn
Advisory Neighborhood Commissioner, SMD 3E04
