

BZA Board members,

This e-mail is in reference to the application # 18992 // address 1015 E Street SE

I own and reside at 543 11th Street SE.

I oppose to the granting on zoning variance to for 1015 E street SE. The proposed variance would result in a very high concentration of residents in an area where there is already a very small parking availability. The proposal will have a very detrimental effect in the neighborhood.
