To: Board of Zoning Adjustment
From: Mark Grisar, agent for J. and S. Pierson
Re: Revisions for Case 19000, 5435 Sherrier Pl. NW D.C.

Jennifer and Stuart Pierson are traveling abroad, and are unable to provide any written confirmations. However, they are aware of this amendment, which withdraws the request for Variance relief from the requirement for one off-street parking space. They do approve of and consent to the withdrawal of the Variance request.

At the same time, the Piersons request that you continue to consider their request for Special Exception relief, as described in the Case 19000 application

The Piersons request that you accept my signature on the revised Self-Certification Form 135. To this end, I have removed the Variance request from the original Form 135, and signed and dated the document.

This letter, along with the revised Self-Certification, a revised Proposed Site Plan and a revised Proposed Site Section are entered into the Exhibits for Case 19000.

Sincerely,

Mark Grisar
