Subject: Janney Elementary School - Roof Top Unit

Ms. Wallace,

I hope this email finds you well. My name is Sarah Hasselmann and I am the project manager with DCPEP at DGS for the Janney Elementary school modernization project. With the last portion of the work to have a fully modernized Janney, DGS is seeking an exception to a BZA variance. The variance we are seeking exception for is 411.11 for new rooftop mechanical equipment. We hope to gain your support to grant the exception.

Please advise when you are available to discuss the matter over the phone.

Thank you in advance

Best,
Sarah
