

To Whom It May Concern, in re case 19037.

I live next door to Derek Mattioli. I support his petition to add a porch to the rear of his house. Such an addition in no way impinges on me, on the light, or on the use of the small alley behind our houses. Every house on our small alley has a porch of some kind. Derek's house, at the moment is bare with most minimum of covering for the basement egress. I have no objections whatsoever to this addition as it can only enhance the look and utility of his home.
