Dear Board of Zoning Adjustment:

Greetings. I have served as Senior Pastor of the Metropolitan Community Church of Washington, DC since January 1, 2010. I am grateful to serve in a vibrant and growing neighborhood. I'm writing you to convey my support for the project by Suzane Reatig Architecture to build four flats at 446-452 Ridge Street, NW.

I work on Ridge Street and I live nearby. I am in a position to observe the neighborhood on a daily basis and be involved with a variety of neighborhood activities. It is my observation that there is street parking available to support this project. I believe the development of these current vacant lots will enhance the positive growth of our neighborhood and overall quality of life.

Sincerely,

Rev. Elder J. Dwayne Johnson
Senior Pastor
