Subject: Variance Application

To: andrewhollinger3@gmail.com

Hello Andy,

As your neighbor and fellow homeowner at 1003 F Street NE WDC, I wanted to write you this email in support of your variance application for the construction of a new deck. As you know, two of our neighbors currently have existing decks on the back of their homes. Neither deck is obtrusive in anyway, nor do we feel that a similar deck on the back of your home would in anyway negatively affect the community or surrounding property. Please let me know if there is anything further we can do to support your project.
