Board of Zoning and Adjustment
441 4th St., NW
Washington, DC 20001

September 24, 2015

Greetings Board of Zoning Adjustment,

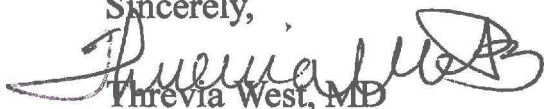

My name is Threvia West. I reside at the above mentioned address and have so nearly 24 years. I am writing this letter in support of revoking the permit for the construction at 1117 Allison St., NW. I am one of the Concerned Citizens of Allison and Buchanan Streets, NW.

I am a intervener because that proposed construction is in violation with the zoning regulations stated for the R-4 district. It would be a eye sore to the aesthetics of the community/neighborhood character and construction. It would depreciate the value of my home and others. Also, it would cause further parking issues especially since we've loss numerous spaces due to water drainage efforts on our street and well as Iowa Ave. Finally it would cause a further loss of sunlight, air flow and our privacy.

Our neighborhood has suffered greatly over the years from all sorts of maladies which could have been prevented. We've hard to keep our neighborhood fresh, clean, friendly, and thriving. We need your help in continuing our efforts as home owners.

I solicit your help in revoking the permit.

Sincerely,

Threvia West, MD
