Statement of Intended Use for 9 foot Rear Addition to My House

Attn BZA Authorities

As described in my other paperwork including my proposed drawings and statement of justification for the requested variance, I, Michelle Munn, homeowner occupier of the property listed above, would like to enclose my 4'8" deep by 10 foot wide back porch and build an additional 4'4" deep by 10 feet wide to expand my kitchen. This will allow me to bring my refrigerator from my dining room in to the [newly expanded] kitchen, and would allow me to orient my kitchen cooking range along the wall, so it does not obscure the cabinets and I can use them.

Sincerely,

//electronically signed 6/29/15// Michelle Munn

Michelle S. Munn
