Statement of the efforts made to contact ANC5E04

After numerous try, I was able to schedule a meeting on (10/20/2015) and presented my case to the ANC5E04. My understanding is that, there is only one opposition and it is from the (Refuge of Hope Disciple Center). On exhibit # 31, they explain their opposition and on exhibit # 34, I answered to all of their concerns. I contact Refuge of Hope representative to explain the development and answer to their concerns, he refused to talk about the case. Talked with other neighbors and it looks like they are okay with it. On ANC meeting, Refuge of Hope representative repeated their oppositions and talked about everything other than parking variance. In the meeting, I mentioned that, I heard nothing about parking variance that this meeting is all about. No reply. At the end ANC5E04 commissioner vote against my request, when I asked for the reason, I heard nothing.

Thanks,
