

To whom it may concern –

This is an affirmation that I continue to support Andrew Daly & Patty Jordan's permitted construction of a garage behind their home on 1120 Park St, NE.

Their plans do not cause me concern or harm.

Thank you -

Subject: Support of the garage project at 1120 Park Street NE

Hello,

I am writing on behalf of the entire Kluck family at 1112 Park Street NE to express our support for the proposed garage construction at 1120 Park Street NE. Patti and Andrew have been very good neighbors and their house is one of the most attractive from the curb of Park. Like all our wooden houses on this street though, it is a smaller-sized rowhouse, and I'm sure Patti and Andrew are always looking for more space.

The alley between Park Street and C Street has never been the most attractive on Capitol Hill but has steadily become more attractive as neighbors have improved their backyards in the same manner in which Patti and Andrew have proposed to do. The Park Street and C Street neighbors even lobbied the city for years to brick the alley and finally saw their efforts pay off last year. Continued improvements by individual homeowners only help our property values and the general aesthetics for all to enjoy. Providing a secure and enclosed place to store belongings out of sight also acts to reduce crime by providing less visual incentive to would-be-burglars.

Thank you for considering our support for this project as a close neighbor (within 4 houses). Please feel free to contact us if you would like to discuss our thoughts further.

Sameena and Tom Kluck

Subject: Letter of support

August 12, 2015

To Whom It My Concern,

We have been residents on Park Street since 2002, and have known Patricia Jordan and Andrew Daly much of this time. They have discussed this project with us and it has been many years in the making. It is our understanding that they went through all of the proper procedures for building, and I find it unfortunate that the project has stalled, apparently due to a neighbor's opposition. To my knowledge, the Daly's have proceeded according to code and submitted the appropriate paperwork, while being transparent about their plans. This project has been common knowledge to all who know Patty and Andrew on Park Street. I am confident that they have done everything necessary for this project, in accordance with local ordinances. I find it difficult to believe they would do anything otherwise -- they know what it means to be good neighbors.

Respectfully,

Nancy and Mitchell Miller
