MEMORANDUM

TO: District of Columbia Board of Zoning Adjustment

FROM: Sam Zimbabwe
Associate Director 

DATE: September 30, 2015

SUBJECT: BZA Case No. 19093 – 2708 Sherman Avenue, N.W. (Square 2858, Lot 53)

APPLICATION

Pursuant to 11 DCMR §§3104.1 Warder LLC (the Applicant) seeks a special exception under §223 from the use requirements under 336 to renovate and convert a vacant one-family semi-detached building into a three-unit apartment house in the R-4 District at premises 2708 Sherman Avenue, N.W. (Square 2858, Lot 53)

RECOMMENDATION

The District Department of Transportation (DDOT) has reviewed the Applicant's request and determined that based on the information provided, this proposed project will have no adverse impacts on the travel conditions of the District's transportation network. The proposed project may lead to a minor increase in vehicular, transit, pedestrian, and bicycle trips. In addition, the project has the potential to generate minor impacts to on-street parking conditions in the area. Vehicle parking demand may increase slightly as a result of the project, inducing a higher level of parking utilization in the immediate area. Despite this minor potential impact, DDOT has no objection to the approval of the requested special exception.

This review pertains only to zoning issues and does not consider potential impacts to District owned public space. DDOT's lack of objection to the zoning special exception should not be viewed as an approval of public space elements. If any portion of the project has elements in the public space requiring approval, the Applicant is required to pursue a public space permit through DDOT's permitting process. The Applicant may refer to the District of Columbia Municipal Regulations and DDOT's Design and Engineering Manual for specific controls of public space. A summary can be found in DDOT's Public Realm Design Manual.
