Application Status by Property Address:

Please see the table below for review statuses. The table is not shown if the reviews have not been identified. A blank Status date means that the initial review has not been completed.

ApplicationID	Date Filed	Full Address	Agent Name	Reviewer Name	Reviewer Email	Phone Number
☐ B1309367	7/29/2013	2126 3RD ST NE	ECKINGTON STATION LLC	Jeanette Anderson	jeannetteb.anderson@dc.gov	240-508-5252
Discipline	Review Status	Status Date	Review Comment			
Zoning Review	Zoning Review - HFC	09/23/2013	[1] the minimum lot area required for new construction is 1,800, [2] you are only required to provide one (1) off-street parking dimensioned at 8' x 18', correct plat, and [3] show proposed roof deck and penthouse on plat.			

Zoning Review	Zoning Review - HFC	10/24/2013	I received the copy of the easement, however, you will have not provided bza relief for this lot for new construction on a lot that does not have the 1800 square feet, or the average of 18' in with for the entire lot, also there are other comments not addressed.	Jeannette Anderson	jeannetteb.anderson@dc.gov
Zoning Review	Zoning Review Approved - WC	10/29/2013	r-4) new c + 3 + roof deck + penthouse for row flat with recorded parking easement to enter adjacent lot #43 for parking, and flex by za for less width/area of new construction. docs attached.	Jeannette Anderson	jeannetteb.anderson@dc.gov
Mechanical Review	Mechanical Review - HFC	09/09/2013	1. obtain clearance from dc water before review can be completed by the mechanical/plumbing section. 2. provide a roof plan and show that the mechanical equipment on the roof is installed in accordance with the requirements of the 2006 international mechanical code, sections 304.10 and 306.5. each one of the above comments should be addressed before review can be completed by the mechanical/plumbing branch.	Tesfaye Habte	tesfaye.habte@dc.gov
Mechanical Review	Mechanical Review - HFC	09/09/2013	1. obtain clearance from dc water before review can be completed by the mechanical/plumbing section. 2. how is ventilation provided to the master bedroom on the first floor and the living room on the second floor? note that the windows in these areas are storefront and natural ventilation is not an option. 3. provide a roof plan and show that the mechanical equipment on the roof is installed in accordance with the requirements of the 2006 international mechanical code, sections 304.10 and 306.5. each one of the above comments should be addressed before review can be completed by the mechanical/plumbing branch.	Tesfaye Habte	tesfaye.habte@dc.gov
Mechanical Review	Mechanical Review - HFC	10/25/2013	comply with items 2 and 3 of the previous comments of 09/09/2013	Tesfaye Habte	tesfaye.habte@dc.gov
Mechanical Review	Mechanical Review Approved	10/25/2013	approved for the following scope of work: new 2 unit building with 3 floors and cellar	Tesfaye Habte	tesfaye.habte@dc.gov
Electrical Review	Electrical Review	08/07/2013		Michel Mba	Michel.mba@dc.gov

Fire Review	Approved	08/13/2013			
Structural Review	Fire Review Approved - HFC	11/05/2013	1 the two units shall be completely fire separated per IRC-2006 section r317, 2 conflicting information the foundation shown on s-1.00 and the architectural drawings regarding the foundation wall. 3 provide retaining wall design calculation by p.e licensed in d.c. 4 rectify how the transfer beams are supported on 2x6 studs. provide connection details. 5 provide the manufactures specification for the joist design. 6 provide the size of beam bb020 (see yellow mark) and provide calculations for the beam design. show details how the beam is supported and the load is transfers the load to the foundation. 7 provide lateral bracing detail and show the bracing locations on the plan.
