

What is the purpose for appicant/developer and his attorney to request a continuance to this hearing? The Eckington Civic Association submitted to ANC5E a letter to oppose the request for a special exemption from inclusionary zoning requirements as well as the entire commision ANC5E, except for one commissioner whom was absent from the October public meeting. 99% of the residents within 200 feet of the development has signed a petition to oppose the special exemption as well. How is it possible to further address issues and concerns raised in this issue which became a DC Law as of year 2008?
