Additional Evidence in OPPOSITION

As of May 6, 2016, Mr. Sulekoiki has not obtained proper building permits from DCRA or DDOT Public Space for works performed at 2126 3rd St NE. DC regulations, requirements & rules are pretty standard for all construction and building. Again, he has chosen not to follow the basic requirements and laws of the District of Columbia. How much more evidence is required to prove his blatant disrespect to our city and the written laws set forth?

Thank you,
Robert Boyer
2110 3rd St NE
