Attachments: 2126 3rd ST NE April 25, 2016.pdf

Additional evidence in OPPOSITION

It's clear with this additional evidence that developer (Darryl) O.A. Sulekoiki has no intentions of obeying the laws, regulations and requirements set forth by DC Government Agencies. April 25, 2016 8:15am photos capture work being performed with DDOT Stop Work Order posted on 2126 3rd St NE. As of date no permits were issued or posted from DCRA or DDOT for this action. Scaffolding on public space and the structural beams added require permits from both agencies. Additional evidence illustrates the character of Mr. Sulekoki in which BZA case 19101 is built upon.

Thank you,
Robert Boyer
2112 3rd St NE
