

15 November 2015

Dear Board of Zoning Adjustment,

I'm writing as a resident of the Bloomingdale neighborhood **in opposition to Building Permits B1505056 and B1510351 issued for 67 V Street NW and in support of Appeal No 19106**. The proposed project is completely out of scale with the character of our neighborhood and threatens the adjoining neighbors' access to solar radiation that can power their homes and nurture their gardens.

The explosion of monster popups like the one proposed for 67 V Street NW must stop. Why are you continuing to support the greed of speculators who care nothing about the historic fabric of our neighborhoods? Please stop the madness now and restore sanity for the neighbors of the Unit Block of V Street NW.

Please find attached images illustrating the overwhelming size of the proposed project. It looks like they are trying to build a hotel in the middle of a residential rowhouse block!

Thank you,

A handwritten signature in black ink, appearing to read "Hugh Youngblood", written in a cursive style.
