Re: BZA Case No. 19112 – Support for Project

My daughter and I are writing to express our support for the proposed project at 307 Taylor Street NW. We reside at 309 Taylor St., NW and have lived there for 23 years.

Since the initial application, the neighbors and the developer have worked closely to revise the project's design so that it is acceptable to all of those involved. The new design is the result of extensive collaboration between the developer and neighbors.

The revised design addresses all of my concerns, and the project will be appropriate for the neighborhood. We believe that the project will not unduly affect light or air, and that the privacy, use and enjoyment of neighboring properties will not be unduly compromised.

Because the project is the result of the developer and the neighbors working together, we urge the Board to approve it.

Cordially,

Janis E. Williams
