

APPLICATION FOR PARTY STATUS IN OPPOSITION TO:
BZ Application # 19120

1. How will the property owned or occupied by such person, or in which the person has an interest be affected by the action requested of the Commission/Board? Less space and light, less privacy, less curb appeal, less value.
2. What legal interest does the person have in the property? (i.e. owner, tenant, trustee, or mortgagee) Owner
3. What is the distance between the person's property and the property that is the subject of the application before the Commission/Board? (Preferably no farther than 200 ft.) Adjacent
4. What are the environmental, economic, or social impacts that are likely to affect the person and/or the person's property if the action requested of the Commission/Board is approved or denied? If approved, I believe it will lower the resale value of my house. It will make me feel crowded in when I selected this house specifically because it had extra space and light, being adjacent to the corner. We will no longer have privacy in the back yard or our family room, which is 9 feet on the other side of the fence where they plan to build. It will also make me wonder why we have zoning regulations if they are just meant to be broken when someone has enough money and a whim.
5. Describe any other relevant matters that demonstrate how the person will likely be affected or aggrieved if the action requested of the Commission/Board is approved or denied. n/a
6. Explain how the person's interest will be more significantly, distinctively, or uniquely affected in character or kind by the proposed zoning action than that of other persons in the general public. I am very sensitive to light (or lack thereof) and it affects my well-being. I had to

move from a gorgeous apartment once for that reason – lack of light. Now when I look out the window I see space and green. If this is approved, that will no longer be the case.

Kind regards,
