Greg,

Thank you for sharing your proposed plans for the addition to your home and completing shade studies to help understand the effects of the addition on our property.

We support the proposed addition. Enclosing a rear porch with a second story interior space is consistent with the neighboring home at 1120 E St., and is generally consistent with nearby two story rear additions.

We appreciate your willingness in carrying out this project to avoid noisy weekend construction except in cases of unavoidable exigency and with as much notice as possible (for example, to protect ongoing work from inclement weather or address unforeseen emergency issues).

Best Regards

Bill Buchman and Alina Baciu

1116 E St. SE Wash, DC 20003
