RE: Application No. 19151

Dear Mr. Varga:

This letter is in reply to Application No. 19151, this request for private parking should not be allowed. My first concern is safety. Small children live at the corner of the 4300 block of D Street SE. There have been accidents at the corner where the new house at 402 Burbank St SE was recently built. Traffic moves much too fast at this intersection. There is not enough land space for private parking to be built at this location. There are sewers at both sides of the corner of this house. If the sewers were taken away or blocked that would cause flooding at the intersection and cause the street to deteriorate. Again safety is a major concern.

Sincerely,

A handwritten signature in black ink, appearing to read "Donna Newman".
