

Washington, DC
Board of Zoning Adjustment

Case #19156

31 March 2016

441 4th Street NW Suite 200S

Washington, DC 20001

Given that DCRA's memorandum did not reflect the changes requested per our updated plans from variance to special exception, Case Design/Remodeling would like to formally request a postponement of our hearing to no earlier than May of 2016. This would allow us to have our memorandum updated.

If you have further questions, please feel free to contact us.

Best regards,
