MEMORANDUM

TO: District of Columbia Board of Zoning Adjustment

FROM: Samuel Zimbabwe
Associate Director 

DATE: January 15, 2016

SUBJECT: BZA Case No. 19164 – 17 U Street, NW

APPLICATION

Mr. Christopher Wright (the “Applicant”), requests special variances from the minimum lot dimensions under §401.3, lot occupancy requirements under §403.2, rear yard requirements under §404.1, open court requirements under §406.1, nonconforming structure under §2001.3, to allow an addition to an existing building serving as a flat in the R-4 District at premises 17 U Street NW (Square 3117, Lot 0003).

RECOMMENDATION

The District Department of Transportation (DDOT) has reviewed the Applicant’s request and determined that based on the information provided, this proposed project will have no adverse impacts on the travel conditions of the District’s transportation network. DDOT has no objection to the approval of the requested variances.

This review pertains only to zoning issues and does not consider potential impacts to District owned public space. DDOT’s lack of objection to this zoning variance should not be viewed as an approval of public space elements. If any portion of the project has elements in the public space requiring approval, the Applicant is required to pursue a public space permit through DDOT’s permitting process. The Applicant may refer to the District of Columbia Municipal Regulations and DDOT’s Design and Engineering Manual for specific controls of public space. A summary can be found in DDOT’s Public Realm Design Manual.
