Subject: BZA Application No 19223

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Board of Zoning Adjustment

February 18, 2016

Subject: BZA Application No.19223

I received notice from the BZA regarding the relief being sought for property 2233 10th street NW 1 Square 357, Lot 90.

I am in opposition to the request of the developer seeking relief from variances from the floor area requirements under 402.4 and the nonconforming structure requirements under 2001-3, to allow the construction of a third story onto a existing one-family dwelling in the R-5-B district..

I am requesting the BZA to uphold the current Laws of The District of Columbia by denying the relief sought by the applicant.
