Subject: Clarification of ANC Testimony in BZA Case 19377

To Whom It May Concern:

In my testimony, I noted that Lee Montessori does not have a neighborhood preference for local students and provides a great education for students across the city. I stated that to my knowledge, only 1 student from the Chancellor's Row community attends Lee. It has since come to my attention that 5 students from the Chancellor's Row community attend Lee.

I regret the error but reaffirm the point that a partial neighborhood preference would enhance the relationship between the existing Edgewood community, the proposed development, and the school.

Sincerely,

Commissioner Edward Garnett
