Subject: **Ward 3 Homeless Shelter**

Chairperson Hill,

I have been following updates regarding the proposed family shelter for Ward 3. In particular, I have read of many zoning concerns regarding parking and building height. Upon reviewing the building application, it appears that every measure has been taken to mitigate as many community concerns as possible while providing desperately needed, safe, temporary housing in our city.

Supporting this project will send a signal to the community that Ward 3 is a leader in providing safe housing to families and children in need. To disregard the proposed plan because of zoning issues would reflect poorly on our neighborhood and cast Ward 3 in an unflattering light, causing an unnecessary rift between us and the rest of the city.

My wife and I plan to attend the community meeting this Tuesday. We hope to hear from you regarding your support for this vital plan.

Very Respectfully,

2ndLt Daniel Mullery
