Re: BZA Application No. 19452

Dear Chairperson Hill,

I reside near 1700 Rhode Island Avenue, N.E., the site selected by the D.C. Council for the short-term family emergency shelter in Ward 5. I live within 0.7 miles of the proposed shelter. I have spoken with representatives from the D.C. government and I have reviewed the concept plans for the shelter. I understand that the District seeks to construct a six-story shelter as an addition to the existing building that was previously a police substation and that the District will have to obtain relief from the BZA for building height, FAR, lot occupancy, rear yard, court width, loading, and parking. The District has provided information, held community meetings, and explained the process needed to operate an emergency shelter at this location. I understand the government will continue to work collaboratively with the community to determine a mutually agreeable path forward.

I am writing this letter to offer my support for the proposed family shelter at 1700 Rhode Island Avenue, N.E. Homelessness is a serious problem in the District, and I applaud our local government's effort to construct short term housing for homeless families. The Ward 5 shelter must be able to accommodate 46 units for homeless families, which I understand drives the relief requested. I have heard that others are concerned with the height and parking, but I do not believe this project will tend to adversely affect the neighboring properties. Without the proposed shelter at Ward 5, which supports a needed public objective, the District will not be able to meet its goal of closing D.C. General, and we will continue to lack housing for our homeless population. As such, I support the short-term family emergency shelter and I hope that ANC 5B and the Board of Zoning Adjustment can support this project as well.

Sincerely,

Helen Taylor
