Roof Doors - Glass

Dayliter Skylights glass roof door is energy efficient and the number one choice for both residential and commercial application.

The vinyl curb mounted (VCM) roof door is a factory assembled unit consisting of an extruded vinyl base frame with all corners fusion welded to ensure an effective watertight frame and condensation gutter.

***** For roof door installs in the City of Vancouver, BC, please contact Dayliter at (604) 856-4530 for available roof door models, prior to curb preparation. *****

***** Please note that roof doors must be installed on a slanted roof or curb. We recommend a rise/run of 5/12 (22.5 degrees), 7/12 (30.5 degrees), or 9/12 (37 degrees) *****
