Hi everyone,

What was thought would be an intimate meeting with neighbors turned to be a well attended event with at least 20-25 neighbors and associated ANC commissioners present. Thanks to all who took the time out to attend. The meeting turned out to have two parts. The beginning the developers presented the project and took questions from the floor. Essentially the developers made **NO CONCESSIONS** to what was requested from the community related to scale of the project and the parking (the variances going before BZA). For the second half of the meeting, the developers were excused and the community directly expressed their opinions on if the project should be supported or not to the attending commissioners. All residents who voiced their concerns during this portion were against supporting the project for the BZA hearing.
