

Dear Zoning Staff:

Please add to the records that the front facing side of building 1916 15th Street SE 20020 that is located on Good Hope Road SE the 1500 Block did not displayed proper advance notice of the Zoning Hearing as shown in these pictures.

In addition applicant for BZA 19572 only just recently filed a traffic study with the Zoning Board on November 10, 2017, which is less than the required 21 days written in the zoning statues. In addition, despite promises from both the owner's community outreach personnel and our ANC commissioner, the residents immediately surrounding the property never received a traffic study to identify patterns in the flow of traffic through our community and potential impacts on parking.

Please enter these procedural disputes into the record on behalf of the homeowners and residents of 15th Street SE 20020.

Sincerely,

1920- Karinne Kennedy  
1922- Carlene Reid  
1926- Dorcas Agyei
