Dear ANC Commissioner Sullivan:

I understand that a mega-house is being planned at 3608 S NW. In particular, the developer is asking to have zoning laws waived to build a bigger addition than what is allowed.

I won't be able to come to the hearing with you on January 3, but I wanted to let you know that I feel that the scale of the house is a visual imposition and out of place in our neighborhood. I also have to say that the idea of roof decks where people can look down into our yards is terrible and counter what the Burleigh community is about which is providing community life while valuing privacy. In particular, I am wondering whether developers are given the same weight as long-term residents in these decisions, which I hope is not the case.

With best regards and Happy Holidays,
