Subject: Comments in Opposition to Case No. 19689, the Meridian development proposal

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Commissioners,

We are writing to express our opposition to Application #19689.

The developers are obligated to show that the special exceptions they seek will not have an adverse impact on the neighboring properties. They have not, and cannot, satisfy that obligation under the current proposal.

This project, which will add more than 110 units of residential housing and a 10,000 square foot conference center to our community, will create an undue burden through the influx of residential and construction-related traffic, loss of parking, and an inevitable increase in noise and congestion. Meridian International Center has long been a source of noise complaints and traffic problems and expanding its institutional use by granting its modification request will only exacerbate those problems.

This project will have a detrimental and irreversible impact on the community if it is allowed to proceed in its current form, and we, therefore, ask you to deny the application.

Thank you,

Basar Akkuzu
