**Subject:** I oppose Special Exception (BZA 19731)

To Whom It May Concern:

I live in Lanier Heights, on Lanier Place, and two years ago I was defending my neighborhood from pop-ups that ruin the neighborhood's feel/look and affect the future family-feel of the place.

I oppose BZA 19731 "Special Exception" because a fourth floor on any row house does not deserve any kind of special exception. This is still a pop-up which is unnecessary, unsightly, and detrimental to the character of our neighborhood.

Please vote against the special exception. Our neighborhood already has plenty of condominiums (and more are cropping up all the time). We do not need our historic row houses changed or modified to build even more.

Thank you for your consideration.
