Re: Case Number 04-36: Dorchester House Associates

To: Jerrily R. Kress, Chairperson and Members of the Zoning Commission:

My name is Dave Zamborsky, and I live at 1668A Euclid St., NW, which is in the Euclid Mews building in Adams Morgan. I am writing to express my strong opposition to the Planned Unit Development proposed by the Dorchester. While I am not opposed to *any* new development on their existing parking lot, I am concerned that *this* particular proposal is simply too large, too intensive, and much, much too tall for this location. While the current Dorchester building has a 16th Street address, this new proposal would front 17th Street, a much narrower and congested residential side street.

Allowing the Dorchester to build so much higher and denser than what they could do as a matter of right will negatively impact me, my household and my quality of life. The Euclid Mews building would be immediately adjacent to the Dorchester development. As currently designed, the Dorchester development would dwarf the entire Euclid Mews building, which is only three stories high. Our streets are already quite congested, and parking is nearly nonexistent. Traffic backs up onto our residential side streets during rush hour, and the main traffic arteries surrounding our neighborhood are already severely congested. This proposal would only make it worse. The physical impacts of the proposed building on the immediate and adjacent blocks would also negatively impact the general aesthetics of the neighborhood. The building itself would not only dwarf its neighbors, but also would be simply too large in a neighborhood consisting of low-rise buildings and townhouses.

I strongly encourage you to oppose this application, and to instead direct the applicant to draft a new proposal or revise the current one, to better fit the scale of the neighborhood.

Sincerely,

Dave Zamborsky
