Ms. Carol Mitten, Chairman
DC Office of Zoning
One Judiciary Square
441 4th St. NW, Suite 2105
Washington, DC 20001

Dear Chairwoman Mitten:

We are writing to express our concerns about Case 05-26, the latest proposed Clark development in our neighborhood. The zoning for this lot is for town houses, not a large apartment building, yet as usual Clark Construction is trying to bypass the rules.

No sooner had my husband and I settled into our lovely condominium at 3901 Connecticut Avenue, than Clark broke ground on the eight-story monstrosity behind us known as 3883. The modern structure is an eyesore which does not fit into our traditional Cleveland Park neighborhood.

Not only did Clark do a poor job on the design of 3883, the company also destroyed the median strip on Tilden Street and never repaired the damage.

My husband and I have loved living in the District of Columbia. We have made the best of a bad situation with 3883. We are counting on the city to uphold the character, and more importantly, the zoning of our neighborhood and ensure that Clark Construction lives up to its commitment to build town houses.

Thank you for your consideration,

Tanya and Ron Correa
