

Current parking situation

At the request of the Zoning Board we were able to get better photographs of the current parking situation on the St. Martin's property. While taking the pictures, we were told by a Hyde Charter School employee that City lights School has 24 spaces they are allowed to use. Those are the cars lined in the middle of the parking lot. Hyde has 67 spaces that they are allowed to use. Hyde uses the first 3 rows in the front and the entire back fence. These photos were taken on Friday February 9th between 11:30 and 12pm.

I was also able to take a picture of a tractor trailer delivering products to Hyde on T Street and there was also a school bus parked on the lot as well.

Additional pictures with time and date stamps are available on the CD provided in this folder.
