Ms. Mitten,

I am writing this brief note to express my support of Catholic Community Services' zoning application to build a 184 unit affordable housing development. I've been a public school teacher in DC for 7 years, and a resident for ten, and I've seen the city change greatly over the years, and I welcome the improvements. Economic development shouldn't be at the expense of the city's working class though, and the CCS project will ensure that many good people aren't displaced by the increased cost of housing. Please keep me informed of your plans with regard to the development. My address is on the front of this card. Francis Wadhams

My name is Elyseth Roma and I am a parishioner at St. Martins Parish. I am writing in support of Catholic Community Services Zoning Application for the 184 unit affordable housing development. I strongly believe that every family should have a safe, affordable place to live. I ask you to support this application.

Dear Ms. Mitten,

I am a long time resident of the Eckington community. I am writing in support of Catholic Community Services Zoning and grant applications regarding the construction of a 184 unit affordable housing development. My son is 24 yo with a good white collar job. He still lives with me but I expect him to get married and move out. At this time he is not economically feasible for him to get married or move. I'm not a grandmother yet but it would be very nice for him to find affordable housing nearby. Please approve this project.

Carol J. Mitten,

I am Rita Akinpelumi and I am a parishioner of St. Martin's Catholic Church in full North Capitol St. Wash. DC. I am in support of the Church effort to build affordable housing for the people that cannot afford the high rent of renting in the District but unable to pay the high rent in the District. I think the Govt effort to support the Church effort to apartment in the District especially should appreciate the Church effort especially all the vacuum left by the Govt. The development in the area of housing. Project and do not Plan is not a threat to property values. Please address to Akinpelumi4@yahoo.com.

Cheryl Reynolds, 323 Peabody St. NW. Wash. DC. 20011.
As a active member of St. Martin's Catholic Church and a native Washingtonian, I support the Catholic Community Service's Zoning Application for the 184 unit affordable housing development. I am a retired Federal employee with grown working children who cannot afford to own there own home in our native city Washington DC has out priced young families. These forgotten young families will be forced to move to North Carolina or further away to seek affordable housing. Resourceful talents will be misplaced because affordable housing is unattainable in this area. Please keep me informed of the status of this application. Thank you for your immediate attention in this matter.
