Re: Case # 05-42 (Sibley Hospital)

Carol Mitten, Chair
DC Office of Zoning

Dear Ms. Mitten:

Please consider very carefully the impact of the proposed Sibley Hospital Medical Office Building.

I believe the traffic impact will be huge - particularly on Tilden St. which is already way overused by cut-through traffic from Massachusetts Avenue.

I believe the access from Rockwood Parkway to Debarcia Parkway should be restricted if not eliminated.

We have giant trucks and backhoes up and down Tilden Street now. I have followed them repeatedly - and their destination is the fenced -

ZONING COMMISSION

in lot behind Sibley Hospital.

The scale of this project as proposed is too big. But regardless of the size of the proposed building, the traffic on Tilden Street must be addressed.

Thank you for your consideration and help.

Sincerely,
Cassie T. Ferguson
