

# PETITION FOR TRAFFIC CALMING FOR THE "MACOMB STREET CORRIDOR"

(i.e. the 5000-5200 blocks, NW running from Loughboro Road to Macarthur Boulevard)

The residents of Kent—and particularly those on the Macomb Street Corridor—are concerned for the safety of their neighbors, including dozens of small children and elderly, due to the increased speed and volume of traffic on Macomb Street. This petition requests that the District of Columbia act to *slow* and *control* the traffic on **Macomb Street between Loughboro Road and Macarthur Boulevard NW** before there is a serious and/or deadly accident on the street. The following conditions warrant one or more stop signs to control speeding traffic:

- The Macomb Street Corridor is a **non-stop street with no stop signs, lights or other traffic controls for more than 6 blocks.**
- The Macomb Street Corridor is a **"cut-through"** connecting two main thoroughfares, Loughboro Road and Macarthur Boulevard; it is a route necessary for fire trucks and other public safety vehicles, but it also serves as an attractive nuisance to commuters and workmen who use it as **non-stop connector** and speed through;
- There are **NO sidewalks** on the Macomb Street Corridor for several blocks, forcing pedestrians into the street with the speeding traffic;
- There are more than **30 children under 10 years of age** on Macomb Street alone;
- St. David's Church on Macomb Street has initiated a 5-day/week **pre-school program which increases traffic** and puts numerous additional parents and children at risk;
- Macomb Street runs downhill into the evening/setting sun, making pedestrians, who have no sidewalks and are forced into the street, invisible and especially vulnerable to **speeding traffic at dusk and during PM commuting.**
