Re: Sibley Hospital - Medical Office Building

Dear Ms. Mitten:

You are probably receiving a volume of mail regarding the planned expansion of Sibley Hospital. As neighbors of the hospital and District residents, my wife and I are totally in favor of the proposed project. The whole concept makes sense - linking health care providers with the hospital. However, there are other issues involved. That hospital employs hundreds and hundreds of District residents. It is convenient for employees due to the dependable bus service. The addition will provide even more employment opportunities for District residents.

There is another item that perhaps you are not aware of. Mr. Sloane representing Sibley Hospital has never and I mean never refused an indigent patient from our Catholic Charities Health Care Network. I called Mr. Sloane a few years ago about a very complicated surgical charity case other hospitals refused. When he was asked to help, he said what he always says "yes."

Ms. Mitten, Sibley is much more than another hospital. It is an asset to the District. Give them the opportunity to be even more.

Sincerely,   
Dr. P. M. Kildea
