Re: Sibley Hospital Case 05-42-PUD and Zoning Map amendment  
Letter of Support

Dear Ms. Mitten and Commission Members:

For more than 30 years my husband and I have lived within walking distance of Sibley Hospital and we believe that the proposed medical office building and garage will benefit the residents of the Palisades and will not have a negative impact on us or our neighbors.

Over the years we have watched as Sibley expanded its buildings and services and have found that each addition had a positive impact on our area by enabling the hospital to offer the residents of the Palisades expanded and improved services. As the parents of two active boys, we have made good use of Sibley's facilities and have always found them to be first rate. We view the addition of a medical office building which includes related medical facilities to be in that tradition.

We do not believe the proposed building will commercialize our neighborhood any more than does the hospital itself.

We urge the Commission, therefore, to approve the project.

With respect,

*Anne Allen - George Allen*
