Washington, DC 20001

**RE: Zoning Commission Case No. 05-42 – PUD and Zoning Map Amendment  
Letter of Support for the Sibley Hospital Project**

Dear Ms. Mitten:

Sibley Memorial Hospital contacted us to have us evaluate the storm water discharge effects on Washington Aqueduct property and operations from the proposed construction of an office building adjacent to Little Falls Road.

We have reviewed the plans and find that the mitigation they propose will satisfactorily control storm water runoff so that it would have no effect on Washington Aqueduct operations and have no objections to the proposed storm water management plan.

Our point of contact is Mr. Michael Peterson, 202-764-0025.

Sincerely,

Thomas P. Jacobus  
General Manager
