Re: Sibley Hospital Expansion

Dear Chairman Mitten :

No hospital should own an office building for doctors. It's a conflict of interest.

Any hospital can pressure doctors into renting in its building by promising to refer new business to him or her.

Hospital can pressure doctors in other ways too.

Medicine is a business.

The goal of a business is to make money.

At \$2000 each, the more tests a hospital does, the more money it makes.

Sincerely,
Carol Brauning
