

Sept 10

Dear Mr Mitten,

As 30 year residents of the Palisades-Kent area at 5021 Millwood Lane,NW, we have always supported Sibley Hospital and its endeavors to enrich the community.

However, we feel very strongly, as do many of our fellow citizens that the new office building and its traffic hazards do require some more thought.

It is often the case that people with good intentions become so involved that they double what is needed. This appears to be possibly the case here and there is very good reason to doubt the wisdom of such a huge undertaking unless the city and its representatives have very thoroughly discussed the issue.

We encourage a new and more accurate study before such a permanent and possibly lasting damage is done to the roads and congestion of this residential neighborhood.

We are certain there can be a solution for all concerned.

Sincerely,

Dorothy & Bill McSweeney
